The Past through Pictures Game

Note to teachers:

Cut out the images along the dotted lines and give them to your students, making sure each student or group of students has one photo. Ask students to closely observe details of that photo. Then ask students to find a student with a different photo of a similar event. (For example, if they have an image of a birthday party, ask them to find a different image of a birthday party.) Ask the students to identify similarities and differences between the two photos.
