

Student Organizer 2
Manipulating the Victims

1. What are some of the reasons victims of human trafficking would not attempt to escape?
2. What fears do human traffickers prey on? Are any of those fears justified?
3. How does the victims' fear of the police or immigration officials prevent them from seeking help?
4. How does the victims' inability to speak the language of the country to which they've been trafficked affect their situation?
5. How are the victims of human trafficking similar to or different from the victims you encounter in your line of work?
6. What advice would you give someone who is in this situation? How can victims be helped?
