

## Women and Islam: Student Organizer

1. Do you think that among Muslims there is more than one interpretation of religious customs and laws? Make a prediction on what you think these different interpretations might be. For example do you think there are different interpretations made by some Muslims on how women should dress?
2. While watching the Religion and Ethics Newsweekly video segment take notes on the following:
  - What does Asra Nomani wish to accomplish?
  - What has the reaction been to Nomani's effort for fewer restrictions on women in mosques?
  - How do Hafeeza Bell and Asra Nomani differ in their view of women's role in the mosque?
